Profile

Monitoring and evaluation officer with seven years on donor-funded health and livelihoods projects in western Uganda. Designs data tools, trains field teams and turns results into reports donors can act on.

Professional Experience

M&E Officer, Mpanga Health Initiative
2021 – Present

- Track results for a maternal health project reaching 18,000 women across four districts.
- Moved paper registers to KoboToolbox, so field data reaches the office the same day.
- Wrote quarterly donor reports that were approved without revisions for two years running.

Field Officer, Rwizi Livelihoods Project
2017 – 2021

- Supported 40 village savings groups, which together saved more than their first-year target.

Education

Master of Public Health, Mbarara University of Science and Technology
2019 – 2021

Bachelor of Development Studies, Kyambogo University
2013 – 2016

Key Competencies

M&E frameworks and log frames, KoboToolbox, Excel and Power BI, data quality audits, report writing, training facilitation, English and Runyankore
